

## Task 3.1: Practice Modifying a Recipe

Look at the ingredients. Next, look at the serving amount. How many people does the recipe serve? Modify the recipe ingredients to feed 25 people. After you have modified the recipe, post your answers to the **Answers Page**.

(Tip: If the recipe serves 4 people, you would need to multiply each ingredient amount by 7. This would allow the recipe to serve a total of 28 people, which would definitely feed 25 people. If you would have only multiplied the recipe by 6, then it would only serve a total of 24 people, which is not enough.)

### Chocolate-Peanut Butter Cookies

Serves: 10 people

#### Ingredients

- 2/3 cup sweetened flaked coconut
- 1/4 cup honey
- 1/4 cup light corn syrup
- 1/3 cup creamy peanut butter
- 1/4 cup chocolate chips
- 2 tablespoons unsweetened cocoa
- 3 cups corn flakes, lightly crushed

#### Preparation

1. Line a large baking sheet with parchment. Place a small skillet over medium-high heat. Add coconut and toast, stirring constantly, until light golden, 3 to 4 minutes. Transfer to a bowl; let cool.
2. In a medium saucepan over medium heat, combine honey, corn syrup and peanut butter. Bring mixture to a boil, stirring, then remove from heat and stir in chocolate chips and cocoa.
3. Continue stirring until chocolate chips have melted, then stir in cereal and toasted coconut until well coated. Drop tablespoonfuls onto baking sheet and refrigerate until set, about 15 minutes.
